1. The #1 and #2 generators at the Suiho (125-00,40-28) Power Plant are now furnishing electric power to the Northeast. Power from the #1 generator is sent to the Hsiaofengman Power Plant where it is redistributed. Power from the #1 generator is also sent to Antung (124-23,40-09), Tunghua (125-57,41-41) and the Yingkou (122-13,40-40), Dairen area. Power from the #2 generator is also sent to the Northeast. The power line between Suiho and Anshan (122-57,41-08) is being repaired as rapidly as possible, and power from the #2 generator will eventually be sent to Anshan. 25X1A2g
2. The #1 generator is in need of repairs and cannot operate at full capacity without overheating.
3. The #6 and #7 generators, which furnish power to Korea, are not able to operate at full capacity because of the poor condition of the transformers.
4. The #3, #4 and #5 generators were removed by the Soviet authorities (See SO-4137 and SO-12489).
